

WAGA

THE FUTURE OF DECENTRALIZED FINANCE

WHITEPAPER

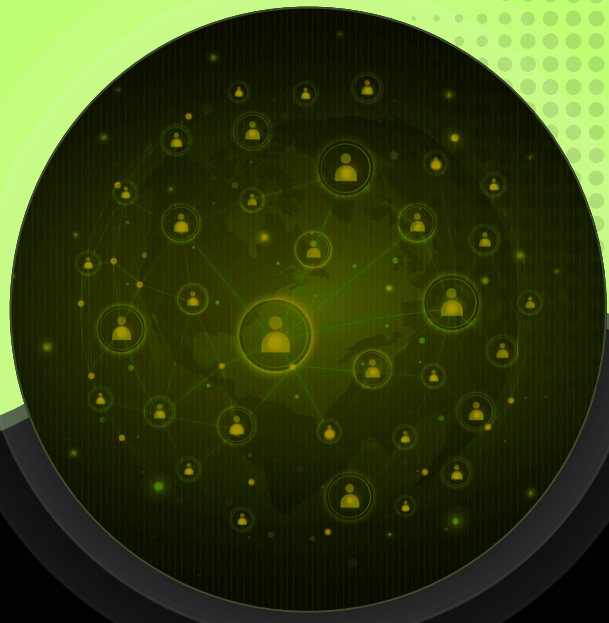

INTRODUCTION TO WAGA

WAGA is a unique DeFi cryptocurrency named after an Ethiopian Amharic word that signifies value and price. It aims to empower the unbanked by building a decentralized peer-to-peer ecosystem, anchored by the real-world project known as the Isle of Judah.

MISSION AND VISION

WAGA is dedicated to bridging the financial gap for individuals lacking access to traditional banking services. By harnessing blockchain technology, WAGA promotes inclusivity and financial independence, allowing users to transact, save, and invest without relying on centralized institutions.

KEY FEATURES

Decentralized Ecosystem: WAGA operates on a decentralized network, ensuring secure, transparent, and efficient transactions, fostering trust and accountability among users.

Peer-to-Peer Transactions: Users can send and receive funds directly without intermediaries, minimizing fees and maximizing accessibility, especially for the unbanked.

Real-World Project - Isle of Judah: The Isle of Judah serves as a tangible initiative aimed at providing resources and support to unbanked communities, enhancing their financial literacy and access to digital finance.

Empowerment Through Education: WAGA is committed to educating users about cryptocurrencies and financial management, enabling informed decisions and effective financial planning.

Community-Driven Initiatives: WAGA fosters a sense of community, encouraging collaboration and support among users to enhance financial well-being and uplift communities.

Sustainable Growth: WAGA aims to create sustainable financial solutions that benefit individuals and communities, contributing to the broader growth of the DeFi landscape.

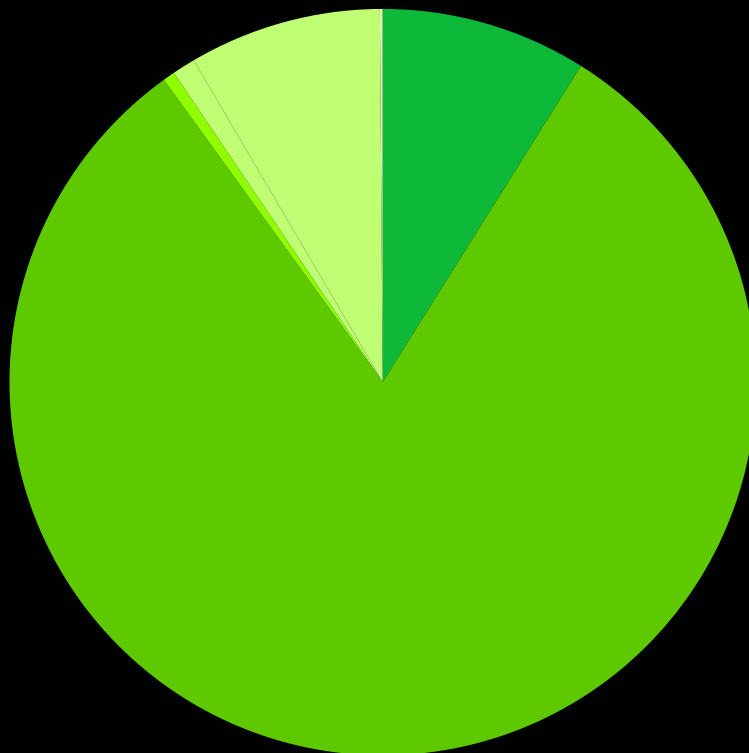

WAGA TOKENOMICS OVERVIEW

MAX TOTAL SUPPLY: 576,000,000,000 WAGA

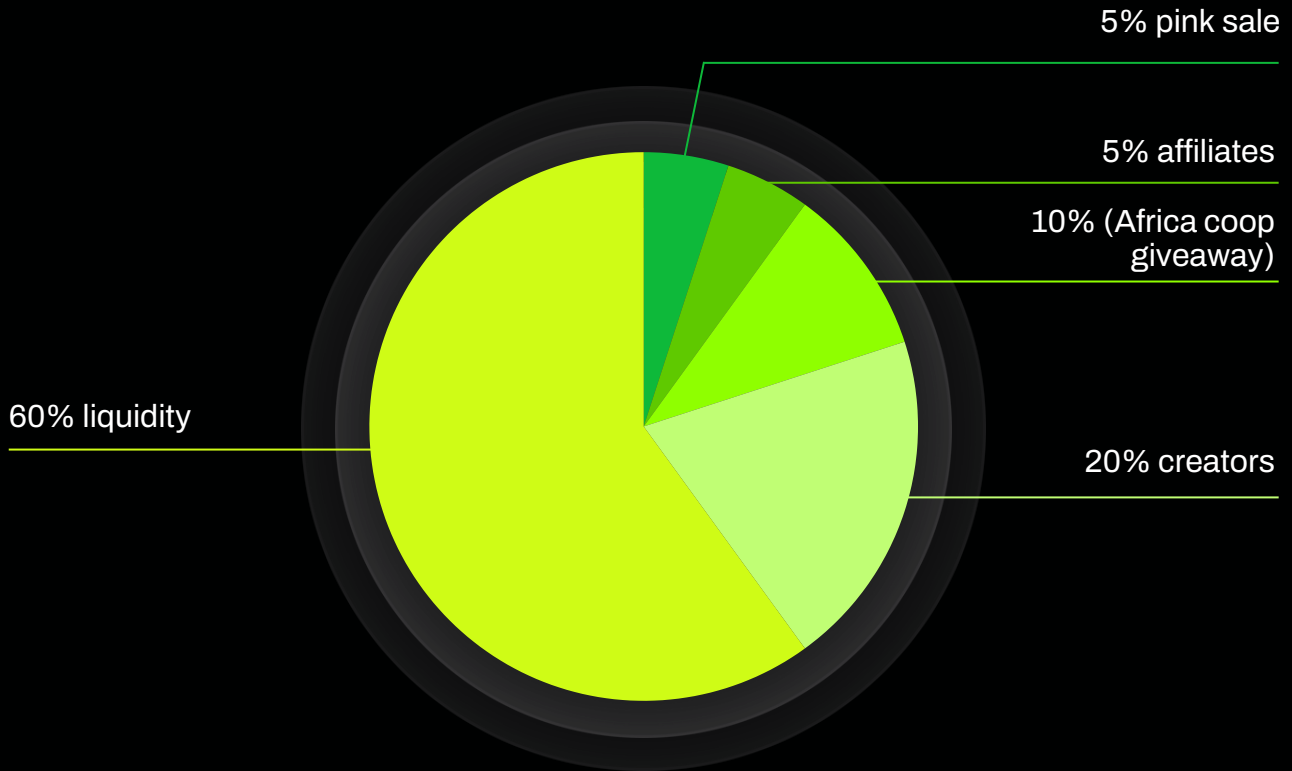

TOKEN ALLOCATION

• Pinksale Presale:	51,356,665,215 WAGA (8.91%)
• Staking Pool:	467,170,685,447 WAGA (81.09%)
• PinkLock:	3,000,000,000 WAGA (0.52%)
• Founders:	5,760,000,000 WAGA (1.00%)
• Ongoing Homage Sale:	47,999,999,998 WAGA (8.33%)
• Giveaways and Airdrops:	720,000,000 WAGA (0.12%)

PINKSALE PRESALE
SOFT CAP: 500 BNB
HARDCAP: 1500BNB

VESTING PERIOD:
50% AND 25% EVERY 112 DAYS

LIQUIDITY LOCK UP: 700 DAYS

WAGA CRYPTO ROADMAP

2023: INITIAL DEPLOYMENT

- Deployment of WAGA on Binance Smart Chain (BSC).
- Smart contract development and deployment on BSC for WAGA coin.
- Early development of WAGA infrastructure.

- Launch of Digital Passport NFTs
- Integration of digital passport NFTs into the ecosystem.
- Early NFT minting for community members and adopters.

- Initial Marketing Campaigns
- Engaging early investors and building a core community through targeted marketing.

- Website Launch and Branding Finalization
- Launch of the official WAGA website with branding and ecosystem details.
- Finalize key partnerships and marketing ramp-up for 2024.

2024: PUBLIC LAUNCH AND EXPANSION

- Community Building and Pre-Sale Strategy
- Launch a community reward program for early backers (staking, rewards, etc.).
- Build a global audience through social media, AMAs, and influencers.

Q2

- Technical Development and Wallet Integration
- Integration of WAGA with popular crypto wallets (e.g., Trust Wallet, MetaMask).
- Enhancement of NFT functionality, including more utility for Digital Passports.

Q3

- Audit and Security
- Undergo thorough smart contract audits to ensure security and trust.
- Further develop technical infrastructure to scale for future users.

Q4

- Launch on PinkSale and Listing on PancakeSwap
- Token pre-sale on PinkSale for wider public participation.
- Official listing of WAGA on PancakeSwap for liquidity and trading.
- Execute a major marketing push to increase awareness.

2025: ECOSYSTEM EXPANSION

- Listing on Centralized Exchanges
- Begin listing on larger centralized exchanges for increased liquidity and market presence.
- Develop partnerships with key players in the DeFi and blockchain space.

Q2

- Launch of WAGA Ecosystem Products
- Expand WAGA's offerings to include more decentralized finance (DeFi) products.
- Introduce staking, lending, or yield farming features for WAGA holders.

Q3

- Cross-Chain Expansion
- Expand WAGA beyond Binance Smart Chain to other networks such as Ethereum, Polygon, or Solana.

Q4

- Global Partnerships and Use Cases
- Secure partnerships with global enterprises and blockchain-based platforms for integration.
- Drive mainstream adoption of WAGA in real-world use cases (e.g., digital identity, NFT gaming, or payments).

CONCLUSION

WAGA is more than just a cryptocurrency; it is a movement towards financial empowerment for the unbanked. With the Isle of Judah as a foundation for real-world impact, WAGA is paving the way for a brighter, more inclusive financial future.
